Please note in regard to:

- Fire Statements - From 1 August 2021, planning applications for buildings of over 18 metres (or 7 stories) tall containing more than one dwelling will require a 'Fire Statement' for the application to be considered valid. There are some exemptions. View government planning guidance on fire statements or access the fire statement template and guidance.
- Permission In Principle - If you are applying for Technical Details Consent on a site that has been granted Permission In Principle, please include the relevant details in the description below.
- Public Service Infrastructure - From 1 August 2021, applications for certain public service infrastructure developments will be eligible for faster determination timeframes. See help for further details or view government planning guidance on determination periods.

Description

Please describe details of the proposed development or works including any change of use.

Change of use of existing equestrian facilities from private use to riding school. A total of 7 permanent stables (at least 4 will remain as private use only), a 20x40m riding arena and a room (I refer to it an an Equi-gym) housing an equisimulator.

The proposed change of use will allow the applicant to work with riders in the riding area on their own horses. This will be on a 1-1 basis only. The equi-gym will be used to help riders rehabilitate from injuries or operations, disabled riders, those with illnesses such as MS as well as abled bodied riders wanting to further their skill level. She will run rider boot camps which will consist of 1 to 3 riders or horse and rider combinations having residential training over a few days. Previously when trialled these attracted riders from all over the UK and she was able to provide local B&Bs, campsites and pubs with extra business generated by these overnight stays. The 3 stables will be used to house horses for both boot camps and long or short term schooling livery.

The addition of a specialist equestrian business will have a good impact on the local economy by creating additional jobs and more clientele for the hospitality industry in an already popular tourist area. As we are situated on the recently widened B5417 which also hosts the popular Les Oakes auction house and reclamation yard and Hales Hall caravan and camping park. There will be little impact on the traffic on the main route to Alton Towers as there are many larger vehicles such as coaches, buses and cars towing caravans showing the good access route for trailers and small horse boxes. The private entry from Oakamoor road is very clear providing good vision and accessibility.

There are no additional buildings required or changes to be made. There is only one neighbouring property which has a field used for solar panels next to the riding arena. The arena is well screened by hedges and trees and will only be used during reasonable daylight hours. There is no lighting to impact on neighbours or wildlife and the noise levels will be no more than talking voices and should not be heard off the properties boundaries.

Overall, the addition should be a low impact business bringing a good reputation to the area through specialist work and training.
