Submission: Objection

Comments: The original planning is an absolute must and must not be revised in any circumstance. The speed and amount of traffic which speeds up and down Cresswell lane and Sandon road is ridiculous. The originally proposed roundabout is the very least we need to try and slow/control the traffic. Dare i say we actually need further calming along Cresswell lane in addition to the proposed roundabout on Sandon road. It is already a dangerous road with more than enough traffic and another accident waiting to happen. The pinch point outside our property and lack of a pedestrian footpath only heightens the danger. It is not designed for the amount, nature (heavy goods) and speed of its current traffic. Its like the m6 half the time. With the addition of 170 properties it is only going to make the whole situation a lot worse. The Road is also in very poor condition. It has been marked twice in the 18 months we've been here for repair but nothing has been done. The whole revised planning does not work. Full stop. The only thing it achieves is saving the developers money and would make a mockery of the planning process if it gets the go ahead.
