The planning application as it is seen today appears to be reasonable and suitable, this does not interfere with the location from my lounge on the first floor. My understanding after looking at the elevations is that it is a first floor extension on the South Side around the back. Therefore I have no objection as it is presented in the elevations today.

I would just kindly ask that the builders and construction workers do not block my drive at any time or interfere with the quality of my life and give care, thoughtfulness and consideration.

Dust, waste and residue should be minimised and cleared accordingly to risk assessment laws and health and safety legislation. I trust that this will happen and due care and consideration given to my own extenuating circumstances, Regards Ms E J Bowen
