Hello Chris,

This application contains 3 identical noise reports which provide insufficient information. It is the exact assessment I have already stated was insufficient. I have emailed you about this previously (previous application). This noise report from 2019 clearly in section 6.0 states plant noise levels can be provided when the location of the plant is known. This assessment should be updated and provide clarity on the predicted impacts.

Additionally there is no advice on the external and internal impacts on the proposed residential units.

I recommend a full revised site specific noise assessment is provided to address the actual plant to be installed, where it is to be installed and the impact to nearest residents.

I have raised this for the previous application and nothing has changed.

Unless a new noise assessment is provided or this is comprehensively updated then I cannot comment any further on this application from a noise perspective. So I can only recommend refusal.

Thank You

Mr Denis Colgan
Pollution Officer
Environmental Health
Staffordshire Moorlands District Council/ High Peak Borough Council Ph. 01538 395400 ext 4404
