Submission: Objection

Comments: I wholeheartedly disagree with the proposed changes to the roadways from the original plans, I live on Church lane and from what I can see there will be no provision within the proposed Traffic lights for traffic exiting Church lane, this will not only be of great inconvenience to the residents but will also impede exit for Church goers and users of the Church hall, there will be no benefit to the local community that use these facilities. Even the original plan was of little or no benefit to users of Church lane trying to turn right on exit, it would have at least slowed the traffic, whereas Traffic lights are more likely to create lines of traffic that will be long on impossible to exit right, and if there is an issue with the A50, this will only exacerbate the issue.

I travel through Cresswell to and from work during the week and have seen many near misses and traffic holdups at the pinch point almost opposite to the former Izaak Walton public house, with the increase in traffic from the proposed housing and proposed expansion of Blythe business park this will only get worse, there is currently no pavement in place, and from what I have seen no longer plans to put one in place. I feel that the residents of Cresswell have difficulty exiting their driveways at the moment and the original plan for a roundabout would have been of benefit to some of those resident, however the addition of a filter lane will not only cause congestion during busy periods, but will make access onto the Sandon road more difficult, but potentially dangerous as well.

Andy Bird
