Submission: Objection

Comments: I am registering my objection to the proposed changes to the roadway plans from the original planning application. I live on Church Lane and from what I can see there will be no provision within the proposed Traffic lights for traffic exiting Church Lane. This will not only be of great inconvenience to the residents but will also impede exit for Church goers and users of the Church hall, there will be no benefit to the local community that use these facilities. The original plan was of little or no benefit to users of Church Lane trying to turn right on exit, it would have at least slowed the traffic. The plan for traffic lights are more likely to build up of traffic along Uttoxeter Road, making it almost impossible to exit right. If there is an issue on the A50, as there frequently is, it will only exacerbate the issue.

The pinch point almost opposite to the former Izaak Walton public house, where there is currently no pavement, with the increase in traffic from the proposed housing and proposed expansion of Blythe Business Park will become even more treacherous that it currently is. The residents of Cresswell fair no better they already have difficulty exiting their driveways, the original plan for a roundabout would have been of benefit to some of those residents, however the addition of a filter lane will not only cause congestion during busy periods, but will make access onto the Sandon road more difficult, but potentially dangerous as well.
