Submission: Objection

Comments: I strongly object to this application as it will double the size of the plant and the new building is on green belt land. This will increase the capacity of the plant and therefore the volume of traffic and smell. The A520 is a very busy 50mph road already without this traffic being added to it. I cannot see that the plant has the 'very special circumstances' required by the National Planning Framework to allow building on green belt land and therefore should not be allowed. Currently a row of trees at the back of the plant reduces the visual impact from Folly Lane the new proposals will remove these and not replace them.
