Submission: Not Object

Comments: Enforcement teams were called out late 2020. An initial application was submitted on the 13/04/2021 and the determination date was 26/08/21. For several reasons, the application was delayed, and no determination was made by the agreed date.

Residents had submitted their responses by 26/10/2021 and were expecting the outcome to be shared thereafter. Surprisingly the wooden structure had been moved from its current location to a new location, now impacting residents close to Harlech Drive. The concern I have is that no residents who are impacted by this proposal have been informed of the process and agreements that have been made by the council.

I appreciate we have had a pandemic, but this is no reason not to have a simple update of the progress of the new structure that has been unfolding in the background.

The latest update on the Staffordshire Moorlands Planning portal has nothing more than a new amended site plan. Are we expecting further drawings and plans? My initial comments still stand and are valid please refer to my comments dated 20/07/21. On the same grounds I am against this proposal being erected in the new location.
