Submission: Objection

Comments: I , like my neighbours, am also objecting to the increased land height behind my property, I feel that it will severely impact on my privacy and also will impact on light to my back garden and house (overshadowing my garden) I would also agree that acoustic fencing is not appropriate to the area I would also be concerned if the land height is increased, that any properties already in situ would be affected by the possibility of excess water/flooding.

These houses should be lower than the houses already here so that we are not overlooked to the extent that light and privacy is lost
