Subject: EC3210 - SMD/2021/0694 - Ash Bank Road, Werrington - SCCHET advice - No impact

Categories:

Dear Jane,

Thank you for consulting with Staffordshire County Council's Historic Environment Team with regards to the above application. The application has been supported by reports outlining a staged archaeological evaluation, comprising an Archaeological Desk-based Assessment and Archaeological Trial Trenching which were curated and informally reviewed and approved by this office at the pre-app stage. We are satisfied that the archaeological potential of the site has been sufficiently characterised and that the reports have been produced in line with the approved WSI and the relevant industry standard and guidance, and given the results of this archaeological evaluation we are happy that no further archaeological mitigation would be required. As such, we do not wish to raise any archaeological or historic environment issues with the proposals and an archaeological condition would not be required.

Please let me know if you have any questions or queries.

Best wishes,

Shane

PS James, given our involvement at the pre-app stage, and the short amount of time we have had to spend on reviewing the application, we are happy not to charge any time against this one

Shane Kelleher MCifA | County Archaeologist
Rural County – Environmental Advice
Office: 1 Staffordshire Place, Stafford, ST16 2LP

Please note: In May 2018 Staffordshire County Council's Historic Environment Team introduced a charged-for pre-application advice service for developers and a charged-for curatorial service for archaeological contractors. For more details about these changes to our service please [click here](#)
