Submission: Objection

Comments: There is already a major safety issue on this road, cars are often having to mount the pavement as the road is limited in areas for two cars to pass which is a concern not only for disability access but the families/people that walk their dogs and the vast amount of children that walk down to catch the bus to the local schools. The cross road at the end of this road (breach lane etc) is very dangerous not only for cars to pull out off but for the children crossing to the 'Bus Stop' which is not safe for people to stand at as it is. It would be unacceptable to then increase traffic/ pollution and the destruction of the landscape in this area which will most definitely affect the life/living conditions of the local people.

The local people are already concerned with safety in this area and to want to add pressure to this is not only an accident waiting to happen but irresponsible for the area and the people who live here.
