Submission: Objection

Comments: I object to this planning application by AP Proteins for a food processing plant to run along side the rendering factory. Should this go ahead there will be double transportation, more light pollution and added noise from the processing plants;...all through the night.

This land is protected green belt, bordering on the properties in Woodlands Avenue. Trees have already been thinned which provided much needed screening. The smells last Summer were horrendous especially with an easterly wind. I was constantly ringing the factory to complain, which proves certain regulations weren't being adhered too. The management seems very lax.

The Government NPPF states local planning authority should regard the construction of new buildings as an inappropriate in the Green Belt and construction should only take place in very special circumstances; Bearing that in mind I am surprised and disappointed that the Cheddleton Parish Council are in agreement with this application!
