Submission: Objection

Comments: I note further information has been supplied in relation to a noise assessment near to HMYOI Werrington, why would this be conducted in the middle of Winter when inmates spend the majority of their time indoors? Yet more biased & convenient assessments carried out to favour developers, this assessment should be carried out at different periods throughout the year and certainly for longer than a week or two - this is almost as questionable as the desk based archaeological study that was informally reviewed after a couple of trial trenches were dug. What a disgrace!
