Good afternoon

We have viewed the above planning application and I would like to voice my concerns, I live at 7 St David's Way and this application is for the house that backs onto my garden. We feel that this is going to overlook our garden significantly and look straight into our kitchen we feel it's too close to our boundary and due to the angle of there house would make it overlooked dramatically more than it is now especially with the proposed double doors to the first floor. I have attached photos of the view from our house.

Regards
Mr & Mrs Walker
