Submission: Objection

Comments: We should be protecting our greenspaces that we are very fortunate to have. The factory already has a big impact on us as residents. The obvious smell is terrible but my main concern would be the damage and impact to the landscape and the wildlife that lives there. Also the increased Hgv traffic on the already dangerous A520. This road is not suitable for Hgv,s to be travelling at 50mph. To me its already an accident waiting to happen. It,s great that jobs will be created but this would probably lead to more development of houses which again impact where we all love to live. Im sure its a thriving business but I dont think Cheddleton is the place to expand it. Is this just greed of wealthy people wanting more?
