Submission: Objection

Comments: I oppose to the planning application for AP proteins due to the proposed site being in very close proximity to houses. Currently, there is already a lot to deal with from the factory including daily noise and bright lights at night, which have not been hidden as previously promised (behind the field on Woodlands Avenue). Frequently, there is a dreadful smell that we have to put up with from the plant which often makes being outside unbearable on these days. The increased noise and smell that will come will only continue to negatively impact the lives of nearby residents. The extra traffic that it will create will cause more pollution in the area and also add to the noise from the lorries. I believe that there is an alternative site that this proposed addition to AP Proteins could be placed (by the wagon part in between line 7), which is not green belt land. If this was the case, a separate road off Bones Lane could be made. Another option could be to buy more land to build the new site on at the back of the factory, which would not have an impact on the local residents as it would be much further away. This land could be obtained if asked.
