Submission: Objection

Comments: I object to the application on the grounds it does not support sustainable transport or the provision of a safe and traffic free route for walkers, cyclists, horse riders and other users through our local countryside.

This is a route that is well used by Cyclists, walkers, runners, horse riders and provides a safe link to other footpaths in the area. The proposed replacement footpath is narrow and would prevent such groups using the path in a safe manner.

Further to this, the reinstatement of a Heritage railway is not supporting sustainable forms of transport and will further add to pollution in the locality.
