Submission: Objection

Comments: I strongly object to the expansion of the factory. I have lived here for 14 years and my Wife for 26 years.

Many noise and smell complaints over the years have been made and very rarely do they take responsibility for their own smells. Blame it on fields or farmers but you can tell the difference.

The extension is to be built too close to residential properties. The noise now is not good so bone grinding and reversing lorries even closer to properties will be unacceptable.

Over recent years trees have been thinned out between factory and houses and now light pollution is an issue. We have flood lights shining into our houses from the site. More lights shown on plans will be even closer and any trees planted are way too small and will take up to 30yrs to shield the factory. this too is unacceptable as larger trees can be purchased to speed up any shielding.

In the reports submitted to planning , 2 reports got road speeds wrong of the A520. 30mph and 40mph in the reports are incorrect. The road is a 50mph road and adding more lorries to this road is Dangerous.

Local residents have not been kept up to date with plans. We used to get leaflets and letters notifying locals of disruption or maintenance but in recent years we hear nothing. this needs to improve if we are to live in harmony.

I also believe this land is green belt and should be left as greenbelt and not built on.
