Submission: Objection
Comments: I oppose the plans because of the following:

The factory is on greenbelt land. If this extension is granted then all plans for houses on green belt land should be granted.

I object to a three storey building. Cheddleton already suffers from obnoxious fumes from A P Proteins.

I object to another chimney. The National Planning Policy Framework.

"Planning policies and designs should contribute to and enhance the natural and local environment by: preventing new and existing developments from contributing to, being put at unacceptable risk from, or being adversely affected by unacceptable levels of air, or noise pollution".

The odour is unacceptable and is classed as very offensive, production will be increased hence the smell will be worse. On really bad days I have breathing problems. The smell seeps into the house and we also have excessive amounts of flies too. Another chimney would greatly affect the air quality and also where it would be situated a slight change in wind direction than normal would affect us greatly.

The blood/raw meat stored outside restaurants before it is collected by AP Proteins, is sometimes stored in the sun and possibly stored for days before coming to Cheddleton. This is classed as decaying material and should be classed as -4. This is a correction that needs to be made in the report at note 5.22.

SMDC planners have a duty to all Cheddleton residents for our health and wellbeing. AP Proteins should not be allowed to extend the factory on all of the above points. The fugitive emissions , odour exposure from two chimneys is bad enough without a third chimney.
