Submission: Objection

Comments: In addition to my earlier comments, I wish to add a comment concerning the visual effect of the proposal. I have today visited the site of the proposal and was horrified to notice that the buildings will be clearly visible from my house at 95 Folly Lane and from all houses southward to Spout Lane. This is not evident from the air photographs which are views taken mainly from the north, even ones claiming to be south easterly. The evidence for this is that the two chimneys appear juxtaposed. and the trees shown in the photographs are not seen in the view from the south west. The hedge that is claimed to exist south of the factory consists only of a handful of hawthorn bushes 3-4metres tall with large gaps between them. There is no way that these bushes could form an effective visual barrier.
