Submission: Objection

Comments: I note that the proposed extension will extend to the left hand boundary, reducing the parking provision by 3 vehicles. We experience current issues with the parking of employee vehicles off site (due to the site being used to display and park vehicles being worked upon), which was not an issue with the previous occupants. I assume that this extension will increase business and workload, so I foresee that the issue will get worse if either onsite parking is not provided, or a condition is not imposed on the application to ensure employees or stock vehicles are on street parked with consideration to their neighbours.
