Submission: Objection

Comments: -I object the is proposal for the following reasons

- the development poses an unknown fire risk that has been seen at similar facilities around the world
- the proposal is on green belt land that should be preserved for the local areas beauty and wildlife
- extra pollution to the area with increased traffic during construction
- the quality of the roads in the area are already incredibly poor / pot holes/ constant road works , this will only add to this ongoing problem
- large hgv vehicles on narrow lanes to constitute the site will not be appropriate or safe for other road users / walkers / horse riders / cyclists
- no prior consultation with local residents

Staffordshire has large open spaces / old factories / abandoned locations that a project like this would be more suitable to
