Submission: Objection

Comments: I object on the following basis:

Inappropriate use of green belt land.

Health and safety of local residents will be compromised during the construction of the site due to increased traffic on already busy roads in the area.

Battery storage units are well documented to have fires. The fallout of which would effect residents health, local wildlife and the pollution of waterways within this area.

This is a storage facility which serves primarily to make money for those involved. It is not increasing the production of energy from renewable sources.
