Submission: Neither

Comments: Firstly the public right of way needs to be maintained during and after the development work. This is a narrow lane and I am concerned that walkers will not be safe having to avoid the lorries etc that will be delivering to the site. What are the plans for maintaining a safe route for walkers from Huntley Lane to the disused railway and into the fields beyond during the work?

What are the plans for maintaining the ROW after the work is complete?

Are there plans to have yellow lines/legal parking restrictions on the lane after completion of the work? Again parked cars would make this hazardous to walkers and other traffic
