Comments: We note that the PROWs Cheddleton 47,53,60 among others, are close to or within the proposed site.

Cheddleton 60 appears likely to be the route to the site both during construction and future access.

We note that recognition of the ROWs is made, and that they are "not to be closed or diverted"

Use of the PROWs, and the safety of users must not be affected by the development, nor during any work taking place. If necessary temporary restrictions might need to be applied for.

This comment is made on behalf of Peak and Northern Footpaths Society, a registered charity which exists to protect and improve public rights of way for use by walkers.
