Submission: Objection

Comments: Grounds for objecting the positioning of the driveway include: Visual Impact - the proposed driveway is at the highest altitude point of the property which directly borders the highest altitude point of rue hill campsite - and thus the proposed location for the driveway will cause the most visual impact to the skyline. Loss of privacy to campers pitched along the perimeter of Rue Hill Campsite - this perimeter is the most popular choice for campers to pitch due to the views of the landscape. Light pollution and noise pollution to Campers who choose to pitch along the perimeter wall to take in the view. Potential health and safety issue due to the proposed driveway directly bordering the well used public footpath.

The driveway could easily be redirected to follow alongside the B5415 then the South West boarder of the property.
