Weberpral M Monocouche Render 25kg is a through-coloured monocouche render in Pearl Grey that can achieve a roughcast or scraped finish, suitable for most types of block or brickwork. Application of a single coat render over two passes allows for fast application with a shorter programme period as well as allowing earlier completion of ground works.

Features & benefits

- One-coat for fast application and short programme periods
- Can be spray applied by render pump for faster application
- Through-coloured for low maintenance – decoration not required
- Weather and algae resistant
- BBA approved certificate no. 17/5464
