I write on behalf of my mother and family regarding planning application SMD/2022/0193 for 15 The Uplands, Church Lane, Ipstones.

We have no objection to a bedroom being made in the present roof, but wish to object to any part of the roof of the property being made higher.

The original bungalow on the site was small in height. The building has more than doubled in height and size.

The Uplands sits opposite my mother's bungalow, at 10 Church Lane, and the roof height is already a dominant feature. It has a very high roof at present and is overbearing from my mother's bungalow. Any part of the roof being made higher would have a big impact on the bungalows opposite.

Thank you for taking this into consideration.

L Jackson
