the plans and then they refused. We have asked and they have ignored us. At this moment in time we have seen no detailed plans and have no details on the boundary.

We are disputing over the party wall act of 1996. They will not discuss anything with us. We asked them to wait, but they have started work.

We are also concerned of trespass and loss of light issues.

We are not happy to have been lied to, kept in the dark, threatened and abused.

It has become obvious that this has been planned for a long time and that several individuals have conspired together.

Would you please look into this matter for us, as it is rather urgent.

Thank you,

Yours,
