My name is Ron Plant, I live at 6, Dovedale Road in Kingsley and would like to raise my objections to the proposed extension to the house opposite me at Churchside Cottage, 12, Church Street.

At present there are two small upstairs windows facing my house which are planned to be replaced with two much larger windows some 4 metres closer looking into my bedrooms and living room. I am going to lose my privacy.

The proposal seems to me to be too large and out of keeping with the surroundings in the oldest part of the village. This is an old cottage and this development would appear to almost double its footprint. I guess that it may be within the legal limits but I feel it has been designed to maximize its space and the cottage look and feel will be lost in this overdevelopment. There will be little left of the garden and, though it is the back of the cottage, it borders the A52 and is the view most seen by residents and visitors.

I hope that you will agree with me and reject this planning application.

Ron Plant.
