I am a regular user of Rue Hill Campsite, and my preferred location to camp is on the perimeter wall of the site that is adjacent to the proposed driveway for the new property. The reason that I choose to camp in that location is for the uninterrupted views of the countryside, the proposed driveway would in my opinion spoil the views from this side of the campsite. There are also other considerations to namely noise and light pollution from any vehicle that is driving past the campsite. Also the exhaust emissions from the vehicles need to be taken into consideration. The owner of the site has gone to great lengths to maintain the countryside around the campsite including making a wildlife haven on the site. This all would be spoiled by this proposed development.
