Submission: Objection

Comments: I note from the documents currently submitted that the traffic survey was commissioned for September 2021, but there is no adjustment in the findings regarding commuters who were still working remotely

Is there any data to show comparison pre or post Covid-19 for traffic flow?

Also can it be confirmed that the 12 parking spaces are extra to staff parking? As mentioned in comments by Jake, the town is sorely lacking compared to surrounding towns when looking at this type of business. Due to this, there will be an excess of the numbers mentioned in the report as passing trade through rush hour, and it will become a magnet to youngsters and young adults with vehicles, being the only outlet with 10 miles. This is not a positive for the community
