To whom it may concern,

I wish to oppose the above planning on a number of grounds. However due to the nature of the applicant(s) in this matter I do not wish my comments and / or contact details to be made public. Paul Wilshaw (who is obviously the driving force behind this application, who so happens to have his son Jake Wilshaws name on the planning application) historically has become threatening towards me when I have made comments on his (many) previous planning applications. The Thursday 9th June, when this particular planning was put in, he was waiting for me on the end of my drive for when I returned from work to ask if I had any objections, then I should speak with him first, before yourselves. Hence why I am not comfortable with him viewing my opposition.

Before I make my reasons for my opposition to you, could you kindly confirm in writing, that my details and concerns will be kept in a confidential manner?

Many thanks

Jayne Cope
