Submission: Objection

Comments: I am writing on behalf of Florence Terrace residents and in support of the objections to this planning application already expressed via the multiple other comments on this page.

SMDC are fully aware of the ongoing dispute between the community of Florence Terrace and the intrusive operations of the jet car wash operational from Endon garage (which borders the homes of Florence Terrace). The local community has consistently and indefatigably expressed consternation at the noise pollution (and in some cases actual physical damage (e.g. erosion of garden fixtures) to property) generated by the jet car wash. Indeed, I understand that in 2020 following a noise assessment, notice was served by SMDC to reduce the noise pollution generated to an 'acceptable level'. Following this notice, no change in the modus operandi of the jet car wash has been forthcoming (e.g., there has been no noise reducing acoustic screening implemented for example), resulting in no reprieve to its relentless intrusion of Florence Terrace private property, and nor has SMDC sought to enforce the notice previously issued.

As such, this planning application, with its stated purpose as being to provide "shelter to the car wash operative" represents nothing but blasé mockery of the concerns continually expressed by local residents to date, and complete and utter disregard for the historical notice served by SMDC. Indeed, rather than seeking to address the SMDC observed excessive noise pollution generated, this planning application instead seeks to enable an amplification of the ongoing excesses already in force.

I implore all members of SMDC to review this planning application in the context described above - please get in touch with me if you wish for further context - and unequivocally reject this planning application whilst also seeking to enforce the previous noise pollution notice served. Please note that dialogue is in the process of being undertaken with all local political representatives in order to escalate this matter to the appropriate levels of seniority as a matter of urgency.
