Light Oaks

I have seen a planning application for the above address, and although I have not been
contacted by SMDC directly by post I would like to add a note giving my opinions.

Living opposite Mr Millingtons address, I have seen this building taking shape very much in keeping with the original building (that was looking in need of some major repairs). I was pleased to hear that one of the main intended uses was to store animal feed safely and securely, as we have noticed an increase in vermin in our area (both rats and mice), also seeing them 1st hand near the feed and classic cars. I feel that the construction of the building will have a noticeable and positive benefit, not only to keeping the horse/horses safe and most importantly healthy but also cutting down the rat population in the area.

The use to store Mr Millington's classic and historical vehicles, protecting them from damage caused by mice and rats is very much welcomed, being a self employed classic car specialist I have seen many times the damage that can be caused by vermin (sometimes not repairable!) I feel Mr Millington deserves to protect his collection of motor history.
