Description of the Proposal

Please note in regard to:

- **Fire Statements** - From 1 August 2021, planning applications for buildings of over 18 metres (or 7 stories) tall containing more than one dwelling will require a 'Fire Statement' for the application to be considered valid. There are some exemptions. [View government planning guidance on fire statements](#) or [access the fire statement template and guidance](#).
- **Permission In Principle** - If you are applying for Technical Details Consent on a site that has been granted Permission In Principle, please include the relevant details in the description below.
- **Public Service Infrastructure** - From 1 August 2021, applications for certain public service infrastructure developments will be eligible for faster determination timeframes. See help for further details or [view government planning guidance on determination periods](#).

Description

Details of the pre-application advice received

No formal pre-application response was received; however, the EIA decision letter included some pre-application advice as part of the screening response.

Overall, the advice was positive and supportive of the principle of solar development due to its significant positive environmental benefit to generate energy sustainably from naturally available light source. However, the officer concluded that the main impacts from the development would be to landscape, heritage, and ecology. These include visual impact, landscape character and public amenity as key considerations requiring a Landscape and Visual Impact Assessment (LVIA).

There are no nearby heritage assets however the case officer mentioned that there are a number of non-designated heritage assets recorded in the Staffordshire Heritage Environment Record which are present within the site and which would need further assessing. Part of the site is recorded as a County Site of Biological Interest which is understood to be chiefly on account of floristic diversity. Maps and aerial photography also show a number of small ponds which forms part of the site. Appropriate surveys, including any protected species survey were also recommended by the case officer.

Authority Employee/Member

With respect to the Authority, is the applicant and/or agent one of the following:

(a) a member of staff

(b) an elected member

(c) related to a member of staff

(d) related to an elected member

It is an important principle of decision-making that the process is open and transparent.

For the purposes of this question, "related to" means related, by birth or otherwise, closely enough that a fair-minded and informed observer, having considered the facts, would conclude that there was bias on the part of the decision-maker in the Local Planning Authority.

Do any of the above statements apply?

- ☐ Yes
☒ No
