streetlighting now to be changed from standard adoptable type streetlighting to low level private bollard lighting as the road is a private road not subject to adoption and will be managed and maintained by private estate management company.

The original streetlighting scheme was designed with specifications of adoptable roads in mind, but with the rural setting of the site and the concerns of some neighbours regards lighting "spread" or glare and light pollution, we would seek to now install 8 no low level private bollard lights in the site and two number low level solar lights in the site entrance way. One resident in the entrance is particularly concerned about full height streetlight columns being positioned outside their homes. So to allay neighbours concerns on this and to maintain safe lighting at modest levels we would seek this amendment.
