Hello Chris,

I will have the revised plans at reception before 11am today.

The changes are as requested:

The porch roof pitch now matches that of the main front gables.
Porch dimensions added, width 2250, depth 1750, height to eaves from ground level 2200,
height to ridge from ground level 3350.

I thank you for your most helpful advice.

Yours faithfully,

Ian Brandrick.
