Submission: Objection

Comments: 31 Rookery Crescent

Cresswell

Dear Sirs,

I would like to register my objection to the above planning application.

I object on the grounds of the following planning matters:

Sustainability-This planning application is a long way short of meeting any environmental objective. It does not protect and enhance our natural, built and historic environment- as a small hamlet, the notion of building a huge black factory with large glazed features will not enhance our natural or built environment, but will prove a huge 'blot' on our landscape that is not in keeping with the surrounding architecture or that you would expect in a rural area; thus not making effective use of the land as per the NPPF. It will not improve biodiversity. Also, it is not using natural resources prudently or proposing to minimise waste and pollution- it will by its very nature cause light, sound and air pollution to a currently peaceful hamlet.

Ecology: Cresswell is an area of flourishing flora and fauna. It is a safe, peaceful environment for both wildlife and its human residents. The negative impact on amenity that this proposal will bring to the ecology of Cresswell will be very detrimental to both. The light pollution, sound pollution and air pollution that the proposed planning application will bring do not provide the deserved respect to wildlife, habitats and biodiversity as part of our nation's wider commitment to environmental sustainability.

I trust you will view my objection favourably,

Yours faithfully,

Lisa Emery
