Submission: Objection

Comments: We strongly object to this application.Our farmland runs adjacent to the proposed site, therefore creating a very strong animal welfare issue. We have a very large poultry unit with high value breeding stocking in it from (Aviagen) and these birds will not respond well to noise, or any other disruption resulting in death. This would cause great financial strain to our business .from a personal point of view we have always enjoyed living in the countryside and feel that the this proposal will strongly effect our privacy and well being.
