Submission: Objection

Comments: Firstly I think the public consultation to this planning proposal should be extended, to allow time for local residents to express their views now they have been given the information . I am local and have various family members who live in close proximity to this proposed development. I have concerns regarding noise pollution on testing of helicopters in the area, noise from the manufacturing plant, concerns surrounding the impact on the rural environment locally, concerns around increased traffic to the area which is mainly residential/rural roads not designed for high traffic volumes, concerns on how this will impact local residents lives on a daily basis.
