Comments: I support development of the site and to bring in skilled companies to the area positive for growth.

I am concerned by the light times and routes they would pass over.

I do not support limited 05:00 starts and believe 07:00 is also still early to commence flights without knowing what the flight path is for undue noise over households for Hills helicopters.

I would like to see the start times moved later, but the 19:00 finish is acceptable.

What would be the complaints process if flights and noise were determined to be high after starting the site?
