Submission: Objection

Comments: Parking on New Street near to the Chemist is problematic, by creating a dropped kerb with H marking the parking problem will only be moved further up or down the street. By restricting the parking near to the Chemist (the only chemist within the village) will result in elderly having to walk further to access their medication by having to park further away. It should also be noted that to the right of the Chemist there is no pavement. The planning allocation also states there is no nearby trees or hedges, which is factually incorrect. My objection is purely based on the fact that parking is already an issue, by allowing the plans to be passed the problem will only become a greater issue for all other neighboring properties.
