Submission: Objection

Comments: Concerned about the impact that H markings will have on parking in and around the area. This main road in the village struggles to accommodate any additional parked vehicles. Residents on New Street are accommodating of people parking in front of their residences as they appreciate that people using the chemist may need to park there as the chemist has no parking facilities. If H markings are applied, this forces users of the chemist to park further along a busy main road that only serves to exacerbate the parking problems that the village suffers from already, and moves the problem from outside of 402, to another resident on New Street. Residents are very accommodating of people needing to park to use the chemist, and appreciate that parking outside their properties is not for very long. I feel that if H markings are passed this could set a precedent, which if others are to follow, would see a marked increase in dangerous parking in the village. Please note also that the sign seemed to have been removed when I went to look for details of the application.
