Comments: I regularly drive along Farley Lane for an employee who works at Alton Towers, and I think it is much needed for more eco-homes to be available, the appearance of this house is in keeping with the area... especially since just up the road is the very modern Alton Towers. Furthermore, it is in keeping with the Alton area and it's natural surroundings as we need to be more at one with nature rather than building houses "like we always have done". Our local area is changing (climate, wildlife, resources) and we need to change with it. Like the style changes between the Tudor house and the Edwardian house, welcome to the urgent future of 2025 houses... Could SMDC please lead the way in providing space for energy efficient, sustainable resource, wildlife friendly eco-homes?
