Submission: Objection

Comments: The whole building will put pressure on the natural environment with regard to disturbing wildlife. There will, inevitably, be a huge increase in litter which is a threat to the safety of the wildlife in the immediate area as well as on every road in and out of Leek. The constant running of car engines whilst queuing is bad for the air quality and goes against the plans to cut emissions. The cars and increased footfall will undoubtedly disturb/disrupt the wildlife and I don't believe this should be allowed.
