Comments: There should be EV charging points and use of solar panels.

The photo used on Page 6 of the Ecology Report is obviously several years old and is therefore misleading. There is now a substantial growth of young trees, shrubs and flowering plants across the site.

The Litter Plan should include checking the adjoining SWT reserve as this would be an obvious place for customers to eat their take-out meals. There are currently no litter bins in this area as they cannot be checked/emptied daily by Staffordshire Wildlife Trust (SWT). There should be discussion with SWT about how best to proceed with this inevitable problem.
