Dear Sir/Madam,

Please can this email be forwarded to the relevant Case Officer, Sophie Woodruff, for the appeal: APP/B3438/W/22/3299330.

I am writing on behalf of a local working group (Blythe Park Development Working Group) representing the residents in the Parish of Draycott-in-the-Moors, where the infrastructure referenced in the appeal is proposed to be constructed.

We, respectfully, wish to request Rule 6 status for the appeal which we were notified about on Tuesday, 19th July 2022 and has been an active appeal since Monday 18th July 2022. Having familiarised ourselves with the requirements set out in the Guide to Rule 6 for Interested Parties, we have identified spokespeople who have detailed, and precise knowledge of this specific case and we believe that we are able to provide vital, additional context and background information into what has been a controversial and contentious issue within our Parish and the wider area.

The group has access to reports and documents that were not presented in complete form at the Staffordshire Moorlands District Council (SMDC) Planning Committee hearing on Thursday, 7th April 2022 and considerable expertise at our dispend concerning the local infrastructure within the Hamlet of Cresswell and Village of Draycott.

As a group, represented by our spokespeople, we would welcome the opportunity to work with you and facilitate a concise and effective appeal.

We have acted quickly to ensure that we can provide comprehensive and important additional information, to the best of our ability, and worked with members of our community to gather the most critical, factual points that we feel are both necessary and significant to this appeal.

We hope that this email finds you well, and that our request is considered acceptable. We look forward to your reply and should there be anything that is required from us in the meantime please do not hesitate to contact me.

Yours faithfully,
Louie Horleston
(On behalf of the Blythe Park Development Working Group)
