Submission: Objection

Comments: I have family that live in the area and I'm very concerned about the noise levels, size/scale of the proposed development and I'm shocked that there are no flight path details given the stage of the application. 120 flights per day and no further information on the route? How can residents make an informed decision? The road structure is not feasible and it is not in keeping with the local area nor the current commercial use of the industrial estate. This changes the use substantially due to noise, moreover I see that little has been done around a noise assessment. I strongly object to these proposals.
