Submission: Objection

Comments: I would like to register an objection to the proposal submitted for a manufacturing building in a surrounding village.

My objection centres on the environmental impact of erecting such a facility in the proposed location.

- Currently the area is filled with wildlife and natural habitats for animals that would be destroyed if this were to go ahead

- noise pollution from the facility would be a huge disruption to the residents, some of which have lived for decades in the area. Many residents are ageing or live alone and the noise could have an extremely negative impact upon their mental well-being and feeling of security

- operating hours do not consider the needs of the residents, that being to relax at home in an evening.

This development also poses safety issues due to the proximity to houses. Access would be required to this which would increase the volume of traffic through a quiet and currently safe area.

All in all this is not in keeping with the community standard that is being maintained within the area. Allowing this would severely impact this and as such i strongly object.
